

- Will accommodate all late model RV Slide-out and window awnings including electric, as long as the diameter of the rolled up awning including fabric is between 2.25" to 2.8".
- Made with a UV resistant Polymer that will never get brittle and will not discolor
- Cover pieces come in either 3' 3" or 4' 3" lengths. Between these two combinations of lengths, we can fit any length Slide-out or Window awning
- Extends the life of your fabric awning indefinitely
- Stain resistant/easy to clean
- Weather resistant/wind resistant
- Virtually unbreakable
- Flexible enough for easy installation in minutes, just snaps on, but durable enough to last indefinitely
- Awning can be extended with product in place for ease of removal.
- "Transport Clips" are included in each Kit, allowing transport with cover installed.

**NOTE: Awning can not be retracted with cover attached, you must secure the awning in the stowed position and then install awning cover pieces.**

**NOTE:** You must remove "Transport Clips" prior to extending the awning.

**NOTE:** Please review the "Question and Answer" page below before ordering.

Please measure your Slide-out or Window awning before ordering. You want to measure the entire length of your Slide-out/Window awning fabric and tube.
